

Press Release

Mitsubishi HiTec Paper to increase prices for POS thermal papers

Flensburg, December 9, 2009 - Mitsubishi HiTec Paper is forced to announce a world-wide price increase for its *thermoscript* Point-Of-Sales thermal papers effective as of February 1st, 2010, varying according to currency area.

Prices for raw materials have been increasing for some time. So far Mitsubishi HiTec Paper has absorbed these additional costs and avoided raising prices for as long as possible. After the cost increases in the past months, this is now no longer possible.
